

③ It is argued that the strategy of inclusive growth is intended to meet the objectives of inclusiveness and sustainability together. Comment.

Inclusive growth is economic growth that provides opportunity for all sections and society avoiding excessive concentration.

Inclusive growth is based on concept of Equality.

Where as sustainability as per Brundland Commission is utilisation of resources taking in consideration future generation's need.

Inclusive growth is needed for Inclusiveness -

- 1) Growth that provide enough opportunities.
 - which provide livelihood opportunities to various community groups like -
 - Women
 - Disabled people
 - Minorities
 - Tribals
- 2) Inclusive growth also focuses on capabilities and strengths of individual, regional resource capacity so that developmental gains can be equally benefitted to inhabitants.
- 3) Indian agriculture which ignored in the

economic models have led to increased 'disguised unemployment' which is not ~~an~~ inclusive in nature.

- 4) Five years plan 11th and 12th, Budget 2020-21 focuses on inclusive growth so that gap between rich-poor, urban-rural population can be minimized and inclusivity can be achieved.

→ Inclusive Growth for - Sustainability

- 1) Growth which is inclusive focuses on developmental needs of present and future generation.
- 2) Development and environmental goals are balanced.
- 3) Inclusive growth is stationary can achieve stability for longer time.

eg. Investment in Renewable sector is not only help growth but also focuses on principle of sustainability.

There is need for Government, civil society, academicians, people should come to some forum so that objectives for inclusive and sustainable growth integrating SDG can be achieved.
